## Snooker, Skills & Enterprise

A one-day workshop on how to grow vibrant, visible and viable community snooker clubs by developing stronger enterprise skills

Get clued up about...

- Social enterprise and the way forward for snooker clubs
- From snooker club to snooker enterprise
- Working with education and other related services as a way forward for snooker clubs and associations
- What can snooker clubs learn - where to get funding
- Grassroots snooker as a medium of engagement and process
- Snooker enterprise - where to get contracts in your area
- Snooker coaching - accredited qualifications...lessons for snooker

If snooker clubs are to grow they will have to get away from just being snooker clubs and benefit from introducing some of the principles applied within social enterprises. Society needs its snooker clubs to prosper. We need them to be places where people want to play and learn, be included and generally become hubs for their communities, in short **become places where people live their lives**. Speakers will provide background thinking, report from real life stories, discuss how to balance the needs of the various stakeholders and how to develop snooker clubs into sustainable enterprises.
